WORK EXPERIENCE

Frontend Developer

Sitelicon Ecommerce Services

08/2023 - Present

Madrid, Spain [Remote]

Achievements/Tasks

- Developed **frontend** solutions using various frameworks and technologies, such as **React**, **NextJS**, **Astro** and **Laravel**, implementing interactive components to improve user experiences.
- Designed and crafted multiple landing pages for a renowned mark in the entertainment industry, ensuring timely delivery and efficient development by creating a reusable template.
- Led the development of distinct sections for a prominent travel-related products retailer. Played a key role in creating admin panels and user interfaces.
- Worked with robust **RESTful APIs** using **Laravel (PHP)**, contributing to **backend** areas by creating endpoints, designing tables, and setting up relationships to manage data efficiently and smoothly.
- Improved **website performance** across multiple projects by expanding my knowledge of optimization techniques and best practices.
- Assisted in website redesign projects, applying growing experience in **UX/UI** to create more user-friendly and visually appealing interfaces.
